1000 Cities Adapt Now global program

CITIES on the
FRONTLINE

APPENDIX 1: GLOBAL PROGRAM STRUCTURE TO ACCELERATE ADAPTATION IN 1000 CITIES BY 2030		
<p>A. Cities Action Track Coalition</p> <p>Leads: Global Center for Adaptation (GCA), World Resources Institute (WRI), Resilient Cities Network (R-Cities), UN-Habitat</p> <p>Deliverables:</p> <ol style="list-style-type: none"> A unique platform of key resilience leaders combines forces to provide donors and cities a defragmented offer, both institutional and programmatic to accelerate climate adaptation in cities. By 2030, 1000 cities will have a comprehensive Climate Resilience Strategy and have started implementing their related adaptation action plans. 		
<p>B. Transformative Capacity Building for Adaptation and Rigorous Learning</p> <div style="display: flex;"> <div style="flex: 1;"> <p>1. Scalable Practical Transformative Capacity Building</p> <p>Lead: GCA Co-leads: R-Cities, WRI, Deltares, Partners: SOI, Blue21</p> <p>Deliverables:</p> <ol style="list-style-type: none"> Development of Cities Adaptation Accelerator (CAA), including new modules on e.g. vulnerable communities and on Floating Urban Development in coastal cities; By 2030, through partners apply CAA in 300 cities to build climate adaptation strategies and action plans and parallel start implementation; Dissemination to and exchange between 1000 regional cities, supported by the Community of Water Adaptation Practice. </div> <div style="flex: 1;"> <p>2. Knowledge and Learning network</p> <p>Leads: WRI (i), GCA (ii) Co-leads: CURE, ICCCAD, LUCCC, R-Cities, IHE-Delft</p> <p>Deliverables:</p> <ol style="list-style-type: none"> By 2030, support 100 cities and 100 communities develop and implement 200-300 inclusive climate adaptation initiatives in partnership with global network of 40 universities; By 2030 Providing education and knowledge for students in 200 cities through MSC Climate Resilient Cities run by IHE/IHS/TU Delft-coalition. </div> </div>		
<p>C. Accelerate and Scale Solutions for Urban Adaptation</p> <div style="display: flex;"> <div style="flex: 1;"> <p>1. Advance nature-based solutions (NBS) in cities to reduce climate risks</p> <p>Lead: WRI Co-lead: Cities4Forests (C4F)</p> <p>Deliverables:</p> <ol style="list-style-type: none"> By 2030, a coalition of 65 cities have integrated NBS into spatial planning, investments, and infrastructure implementation to reduce their climate risks. </div> <div style="flex: 1;"> <p>2. Urban Water Resilience Initiative</p> <p>Africa Lead: WRI Co-leads: R-Cities, trS, Arup</p> <p>Deliverables:</p> <ol style="list-style-type: none"> By 2030, an urban water resilience program has been set up to implement and scale urban water action plans in cities across sub-Saharan Africa. The Africa Urban Water Resilience program has been scaled from 6 to 20 cities with catalytic impact in at least 100 cities. A pan-African finance coalition supporting urban water resilience has been established. <p>India Lead: WRI Co-leads: WaterAid, BMGF, Water.org, Biome Trust, MHT, Take a Stake Fund, ihs, NIUM, GUDI, Dasra</p> <p>Deliverables:</p> <ol style="list-style-type: none"> An accelerate access to WASH and healthy spaces coalition has been setup in India The coalition develops key research products and implements learning labs for the urban poor communities across India The coalition implements demonstration projects advancing placed based integrated WASH and healthy spaces solutions in 8 cities and 18 communities </div> <div style="flex: 1;"> <p>3. Build the climate resilience of the urban poor</p> <p>Leads: UN-Habitat, WRI, GCA</p> <p>Deliverables:</p> <ol style="list-style-type: none"> By 2023, implement climate resilience pilot projects in 12 hotspot cities, and mainstream pro-poor resilience in national and local climate policies. By 2027, scale up climate resilience to 50-70 hotspot cities through planning and investment finance. By 2030, enhance capacity among all levels of government and core partners to coordinate action towards resilience of the urban poor globally in at least 140 cities. </div> </div>		
<p>D. DATA</p> <p>Lead: WRI Co-lead: GCOM</p> <p>Deliverables:</p> <ol style="list-style-type: none"> Establish an M&E plan and develop indicators for the 1000 Cities Adapt Now Program to track progress. By 2030, add the resilience data of 1000 cities to GCOM's climate data portal for cities. 		

Coalition: Platform

A unique platform of key resilience leaders combines forces to provide donors and cities a defragmented offer

Transformative Capacity Building: Practice and Knowledge

- Cities Adaptation Accelerator (CAA)
- Knowledge and Learning network

Accelerating and Scale Solutions

- Advance nature-based solutions (NBS) in cities to reduce climate risks
- Urban Water Resilience Initiative
- Build the climate resilience of the urban poor

Data

M&E plan and develop indicators for the 1000 Cities Adapt Now Program

#1000CAN

NEXT STEPS

CITIES on the
FRONTLINE

1. CONTINUE TO DEVELOP THE CONTENT OF THE PROGRAM
2. FROM GCA-SIDE: CITIES ADAPTATION ACCELERATOR
3. SELECT CITIES FOR THE SHORT TERM
4. DESIGN A SCALING MECHANISM
5. SEARCH FOR RECOURCES
6. EXPAND THE PARTNERSHIPS
7. SHAPE ROADMAP TO COP26 WITH A FOCUS ON R2R
