RESILIENT COMMUNITY IMPACT FUND (RCIF)

The RCIF is a grant based fund for members of the Resilience Cities Network to invest in pilot projects that can deliver immediate benefits for vulnerable communities and ensure long-term resilience impacts to cities.

Resilient Cities Network is the world's leading urban resilience network building a safer and more equitable world.

We bring together global knowledge, practice, partnerships, and funding to empower our member cities. Arm in arm with those cities, we help them build a safer, more equitable, and sustainable future for all their residents.

Our network is city-led, impact-focused, regionally-driven and partnership-based. Our membership of 100 cities and Chief Resilience Officers is growing around the world, driving equitable resilience for communities.

Resilient Cities Network

info@resilientcitiesnetwork.org

220M

Our mission is to reduce the vulnerability and improve the well-being of over urban dwellers around the world.

\$10M USD

TARGETED

Resilient Cities Network will raise funds for the RCIF, targeting a minimum fund size of \$10million USD, to be put towards prioritized resilience projects that are small to medium scale and can further leverage funding on the ground from key financing and grant making stakeholders.

GOAL

To make catalytic grants to prioritized small and medium scale local resilience projects around the globe that further leverage funding on the ground, jumpstart projects, and increase holistic resilience impact for vulnerable populations.

Initial rounds of RCIF will highlight equity and resilient recovery from COVID-19, while aligning to our overall urban resilience goals and thematic pathways.
